Build a Curvy Dining Table

Free Plans to Build a Curvy Dining Table

Here are plans for a super-cool and stylish table perfect for entertaining during the warm weather! The free plans to build a curvy Dining Table are easy to build and can be constructed in treated lumber, cedar, or regular pine lumber (as long as it is protected with a weather resistant finish!). Did you know that treated lumber can be painted once it dries? It usually has to dry for a season so if it is built this summer, it can be painted next summer! Plans to come for a matching bench and armchair!

Materials:

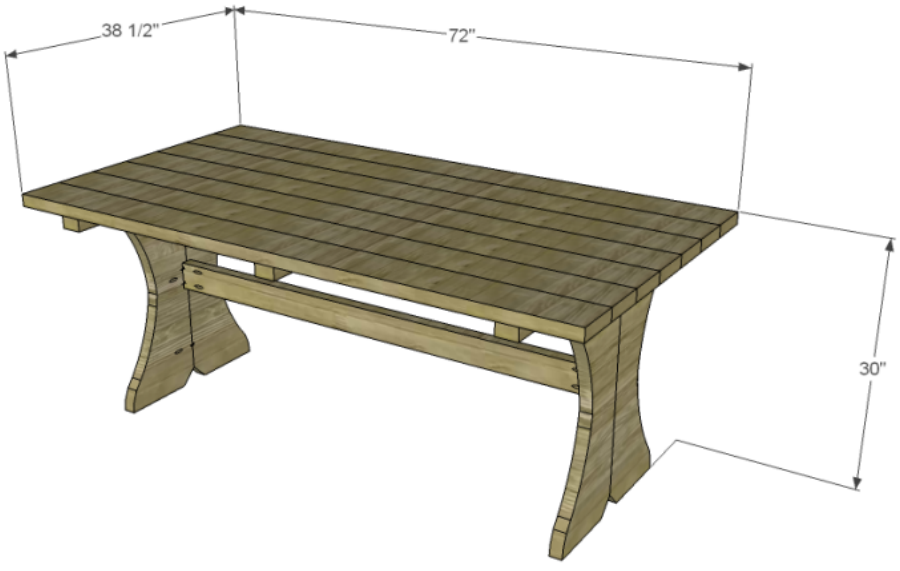
- 2-1/2″ pocket hole screws
- 2-1/2″ screws
- Finishing supplies

Lumber:

- 1 – 2×3 at 8′
- 1 – 2×4 at 6′
- 7 – 2×6 at 6′
- 2 – 2×12 at 6′

Cut List:

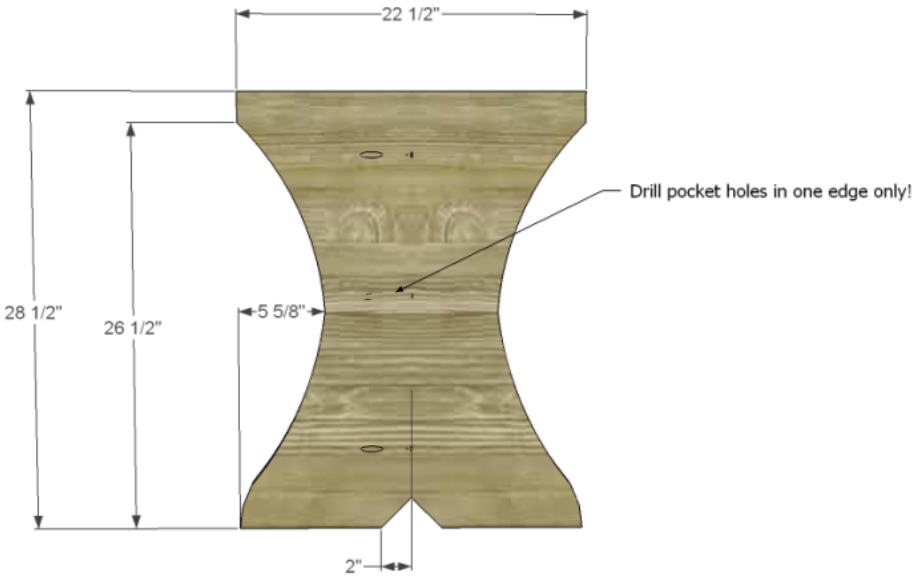
- 4 – 2×12 at 28-1/2″ – Legs
- 1 – 2×4 at 59″ – Stretcher
- 7 – 2×6 at 72″ – Top
- 3 – 2×3 at 28-1/2″ – Top Supports



Click on the drawings for a larger view!

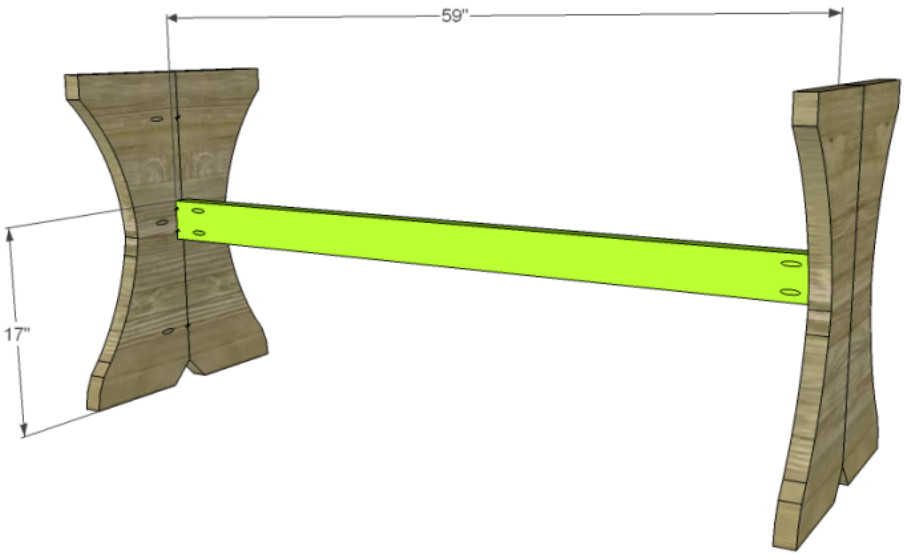
Step One

Cut the pieces for the legs. Cut the curves as desired using a jigsaw or a bandsaw, and drill pocket holes in one straight edge of two of the pieces. Assemble using glue and 2-1/2″ pocket hole screws.



Step Two

Cut the piece for the stretcher and drill pocket holes at each end. Position as shown and secure using glue and 2-1/2″ pocket hole screws.

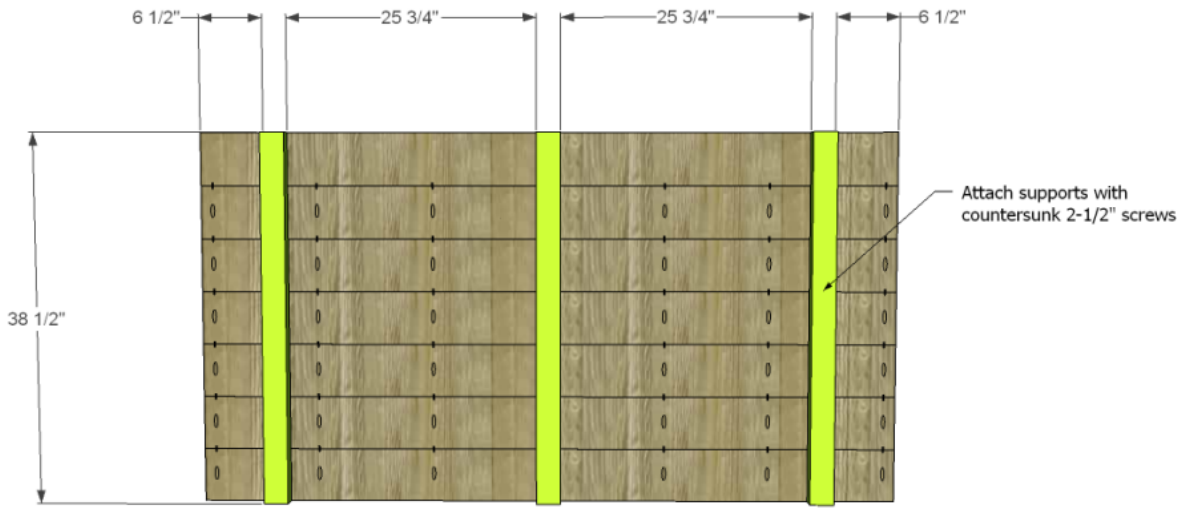


Step Three

Cut the pieces for the top and drill pocket holes as shown. Assemble using glue and 2-1/2″ pocket hole screws.

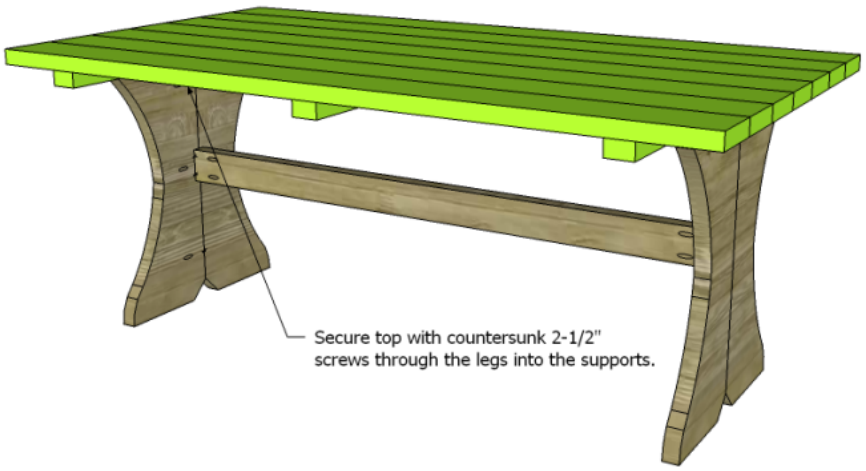
Step Four

Cut the pieces for the top supports. Position as shown then secure using glue and countersunk 2-1/2″ screws.



Step Five

Position the top on the legs and secure using countersunk 2-1/2″ screws through the legs into the supports.



Finish as desired!

The free plans to build a Curvy Dining Table are the first in an excellent series that can be constructed for the indoors or outdoors! Have a request for a plan? Contact me at cher {at} designsbystudioc {dot} com or designsbystudioc {at} gmail
